25 Scarlet Beauty 50 June 25 Sparkle

25 Sparkle NET No Discount 100 of three fine sorts. Early, midseason

and late. None better.

Thrives in Poor Soil

Due to its plant making ability, the Scarlet Beauty will thrive and produce a crop of berries on rather poor soil. Scarlet Beauty is a perfect flowering variety which requires no pollinizing. The plant is rather small but exceptionally long rooted. It has healthy foliage, is an excellent plant maker, and an immense producer. Perfect flowering.

Our Personal Visit To Your Home AN HONEST STATEMENT ABOUT STAHELIN'S QUALITY NURSERY STOCK

Dear Customers: Prices are still rising in most lines as we stated in our 1952 catalog. Everything that goes into production of quality nursery stock is higher: such as, fertilizer, advertising, paper costs, string, etc. However, we have tried to keep our rates as low as possible and still give our customers the best possible nursery stock at a fair rate. Everyone knows that price is important, but quality is still more important. Cheap stock is dear at any price. High quality nursery stock at a reasonable rate is the only kind to plant. Satisfaction is worth more to us than the saving of a few cents. We have satisfied thousands of customers both as to price and quality and we can satisfy you.

C X Stabalin

CERTIFICATE OF NURSERY INSPECTION

Michigan State Department of Agriculture—Orchard and Nursery Inspection No. 3444.

This is to certify that the nursery stock of Stahelin's Nursery, Bridgman, Michigan, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases. Fee paid \$32.00.

Chas. Figy, Commissioner, Lansing, Mich.

Bureau of Agricultural Industry, C. A. Boyer, Director.

Aug. 20, 1952

TRANSPORTATION

Unless otherwise stated in catalog, transportation charges on all stock listed in this catalog are to be paid by the customer, as the weight of nursery stock cannot be determined exactly in advance of shipment.

FALL SHIPMENTS

We encourage the fall planting of nursery stock. Plants and trees are dormant then, and when warm weather comes in the spring, your stock is ready to commence growing. Nursery stock cannot be shipped until it has had some cold weather to harden it up, and fall shipments are usually made after the middle of October. NO DISCOUNT ON FALL ORDERS.

TERMS ON C.O.D. ORDERS

We can ship C.O.D. if the order amounts to \$5.00 or more at fall catalog price, no discount allowed, but 25c on each dollar must be included with your order as a down payment. If order amounts to \$5.00, send \$1.25 with the order; if \$6.00, send \$1.50, etc. You may inspect express shipments before you pay. (Parcel Post not subject to examination.) If satisfactory, pay the agent the *amount due. No C.O.D. shipments made after April 25th.

Save WITH Stahelin's CASH DISCOUNTS

All orders received during January and up to February 3rd, 1953, with cash in full enclosed, are subject to a 10% discount. No cash discounts on bargains or special made by mail. This discount not good after February

quotations made by mail. This discount not good after February 3rd, 1953.

DON'T WAIT TO ORDER

Our customers have been very fine in the past few years in placing their orders early. Please remember that the shipping of strawberry, asparagus and that class of plants, depends entirely on weather conditions here. WE POSITIVELY DO NOT SHIP ANY STORAGE PLANTS. We will endeavor to fill your order as close to the time specified as we can, but if excessive rain or cold weather hits us at that time of year, there may be a slight delay.

NOTICE

For approximate shipping charges, refer to the back of our order sheet enclosed with this catalog. Complete schedules and rates, as closely as they can be figured, will be found there.

STAHELIN'S GUARANTEE

We guarantee our stock to be true to name. If it proves otherwise, it will be replaced free of charge.

We guarantee that our stock is exactly as described in our catalog and is guaranteed to reach you in live and growing condition. Any stock not being as described above, will be replaced free of charge, but the customer must report this condition AT ONCE upon receipt of shipment.

If the shipment is unduly long in reaching you, be sure to secure a signed statement from your local agent and send it to us.

Weather and other conditions being beyond our control, continued growth is not guaranteed.

Stahelin's

PRBMIBR

By means of careful plant selection for a number of years, we have perfected a strain of Premier that we know will produce more plants per acre than any other strain of Premier. Our Premier is adapted to all soil and climatic conditions. The picking season is long.

soil and climatic conditions. The picking season is long, commencing with the first and continuing to produce large size fruit until the late varieties are practically over. Premier is very easily picked, and easily sold because of its large size. Stahelin's Premier is practically immune to late spring frost and if you are located in a section where such trouble occurs, you can be assured of getting a fine crop if you will plant our Premier. This is due to the peculiar plant growth which it makes, almost completely hiding the blossom and protecting it from severe cold. Berry is extremely juicy, yet quite firm, making it an excellent shipper. Comes on the market when there are practically no other strawberries. Fruit is bright showy red with a large calyx. For a big crop of fine fruit in spite of cold weather when plants are in blossom, plant Stahelin's Premier.

PREMIER PRICES:

25 for \$1.25 50 for 2.00 100 for \$3.00 250 for 6.50 500 for \$ 9.50 1000 for 17.00 2000 for 32.00

1 Extra Early, 1 Midseason

TEMPLE

The New Strawberry That Is Entirely Resistant
To All Root Diseases

We have fruited Temple quite extensively here on our farms for the past several years and think that it is one of the finest dessert strawberries we have ever picked. It has a beautiful dark red color and is very firm when fully ripe. Flavor is excellent and its dark red color, clear through, makes it

very desirable for freezing. Temple is a very remarkable grower, will survive wet weather conditions under which the ordinary strawberry would be a total

failure. Plants grow unusually tall, yield heavily, and fruit ripens a few days later than Premier. Berries are large, have a brilliant calyx and present a fine appearance when packed. Due to its firmness and color Temple is a very good shipper. We believe commercial plantings of this variety should be increased.

PRICES:

25 for \$1.25 100 for \$3.00 50 for 2.00 250 for 6.50 500 for \$ 9.50 1000 for 17.00 2000 for 32.00

in just a few weeks after setting out, and will keep right on producing steadily all summer and fall. BRILLIANT'S amazingly high production—one to two quarts of berries per plant, over 2000 quarts more per acre, than any other Everbearer—will earn you big cash profits right from the start.

Save on Food Budget-Earn Extra Cash Too Brilliant yields such enormous crops, even a small planting of less than an acre will provide enough berries for every home need and give you a large surplus to market locally. These berries are so big and handsome, they always bring top prices on the fancy fruit market. You can make yourself a nice cash income and save on food budget, too, by planting BRILLIANT this spring. Order your plants now.

Proper Planting Is Essential

Proper Planting Is Essential
The more Everbearing strawberries that you set on an acre
the more fruit you can expect as the bulk of the crop is
produced on the mother plant. Set your BRILLIANT plants
12 inches apart in the row, planting 3 rows that are 12
inches apart, then skipping about 40 inches and plant 3
rows more; in other words, so that your plants are 12 inches
square in the 3 rows. Runners and blossoms should be cut
off until mid August and after that you can let them grow
as you wish. BRILLIANT is a 100% perfect pollinizer and
the only Everbearing that makes a solid picking row. Complete cultural instructions free with each order upon request.

ARMORE Beautiful Color Delightful Flavor Uniform in Size

The Armore, in our opinion, is one of the finest of the new varieties of strawberries that has been introduced in the last 20 years. It is a result of years of testing by the Missouri Experimental Station. In our tests plots here, in the past two years the Armore has produced more fruit of larger size and better color than any other of the new sorts. It is perfect flowering. We recommend it very highly to our customers to try out. We personally are planting a large acreage this coming year to fruit as it is a perfect shipper and makes a fine picking row on light soil. It is a top-notch producer and if you want a quality berry, try Armore this season.

PRICES:

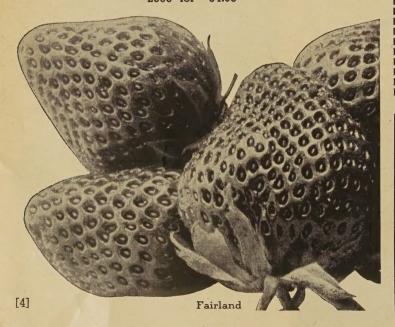

25 for \$1.25 50 for 2.00 100 for \$ 3.00 250 for 6.50 500 for \$10.50 1000 for 18.00

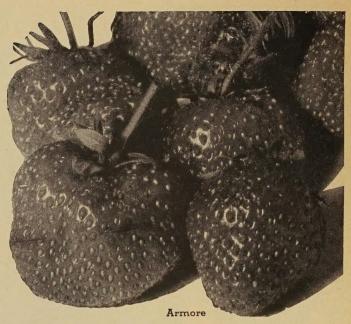

Delicious Hardy FAIRLAND

Fairland is another one of the varieties developed by the U.S. Department of Agriculture to combat the Red Stele disease. Fairland is being grown very generally in Berrien County, Michigan, one of the biggest strawberry growing sections of the Country, as a market berry, and our growers here make very favorable reports on it. The Fairland Strawmerry ripens just a few days after Premier. It is just as productive as Premier with a firmer berry. The berries are large in size and an attractive light red color. Fairland has proved to be an excellent shipper and as it is entirely Red Stele resistant, it does particularly well in the middle and upper northern states. A fine variety for gardens and one of the best we know of for freezing. Berries are of good quality and the flavor is excellent. This variety is a good plant maker and one which we recommend to you for trial as we know you will like it.

PRICES:

25 for \$1.25 50 for 2.00 100 for \$ 3.00 250 for 6.50 2000 for 34.00 500 for \$10.50 1000 for 18.00

New SPARKLE

The Sparkle strawberry, which gets its name from its sparkling appearance, came to us from the New Jersey Experimental Station. This variety is very resistant to Red Siele and other strawberry diseases which sometimes attack the weaker varieties. Will do well even under wet weather conditions, where ordinary varieties would soon die. A good plant maker, it yields heavy crops and is mid-season in ripening. A quality berry, uniform in shape, medium to large in size. Excellent for freezing.

PRICES:

25 for \$1.25 50 for 2.00 100 for \$ 3.00 500 for 10.50 250 for 6.50 1000 for 18.00 2000 for 34.00

New REDCROP

Redcrop is a mid-season variety—an introduction of the New Jersey Agricultural Experiment Station. It is proving to be a good producer, and in central and southern New Jersey,

growers have reported an average of from 3,000 to 5,000 quarts per acre. Redcrop makes an excellent frozen product because it is deep red clear to the center. A most attractive market berry of medium to large size and good color. Red Stele resistant. Vigorous and makes a well matted row.

AMAZING NEW EVERBEARER

ONLY GENUINE IN THIS

This year we add Red Rich to our list of everbearing strawberries as a variety that every gardener should try. Red Rich is a dark red, tough skinned variety that is honey sweet. The plants grow to immense size. Given plenty of moisture during its fruiting season, the amount of berries that Red Rich produces will astonish you. Originating in Minnesota, Red Rich is very hardy. Set on good fertile soil, a good row can be produced and you will like the pleasant flavor and fine dark color of the Red Rich berries.

Senator Dunlap

SENATOR DUNLAP

A Proven Variety For Over 30 Years

The Senator Dunlap is perhaps the oldest strawberry listed today. It was popular 30 years ago and is still popular. Much of this popularity comes from the housewife, who knows that the Senator Dunlap is one of the outstanding varieties for home use or canning. The plant is very vigorous, will grow on the poorest of soils, and seems to do well in every state of the

Union. The berries are a beautiful crimson color, firm and quite pointed. A hardy variety and a good plant maker. We know it will please you.

INDIAN SUMMER EVERBEARING

A berry that has beauty, flavor and everything combined to make an ideal everbearing variety. Has marvelous keeping qualities—a sensation because of its size and unusual beauty. Bears a large crop in the spring and in the fall. Plants are thrifty growers, hardy, free of any diseases, and enormous producers. Berries are excellent for eating, canning or freezing, making delicious jams and jellies. A trial planting will convince you.

SUNRISE THE FINEST EARLY TODAY

An excellent red raspberry, which we recommend very highly. It starts to ripen in Michigan the latter part of June, about two weeks ahead of Latham, and because of its habit of sending up long shoots from the bottom of the cane, which ripen later than the buds at the top, it has an extremely long picking season. About the size of Latham, and a bright red when ripening. Fine textured, juicy; does not crumble, and is very firm. Does not require expert attention to grow. Plants are vigorous and bear

heavily. Easy to pick and sell.

New September

The New September everbearing Raspberry was introduced by the New York State Fruit Testing Association in 1947. It is a result of a number of crossings. The plants are of a very good size and the fruit is of excellent quality and when ripened show no signs of crumbling. One feature of the New September is that it ripens a great many days earlier than most other Fall bearing varieties, thus getting a chance to mature its crop before cold weather sets in. In the Spring it is very early and will ripen before practically any other common sorts of raspberries are in. The plants are vigorous and very hardy and should be a fine addition to the home garden. The variety is new and plants are somewhat scarce, so plant a few in your garden for trial.

Stahelin's 2-yr. BEARING AGE RASPBERRY PLANTS

If you are interested in quick results, we urge you to plant the bearing age size raspberry plants. If you realize that bearing age plants, if properly planted and cultivated, will, in two seasons, bear practically a full crop of fruit, you will understand why we urge our customers whenever possible to set the large bearing age plants. The cost is necessarily higher but when you consider what they will do in a short time, they are well worth the money. Prices on our bearing age raspberry plants will be found directly beneath the description of each variety.

New EARLY RED Red Raspberry The New Early Red raspberry originated at the South Haven Experimental Station in 1931. Since that time, we have watched it carefully. It has been commercially tested in this famous raspberry growing section for the past ten years. It is the earliest maturing red raspberry that we know of and comes on the market when prices are higher than the later varieties. Plants of Early Red are upright, vigorous, hardy and Early Red very productive. In our garden here last year, from one single plant, over a pint of berries was picked at one picking. The fruit is conical, light red when first ripe and it separates from the vine easily. This is important as the berries are easy to pick while firm and the harvesting can be done before they are too soft. Due to its parentage, it has inherited much of the excellent flavor of the old Cuthbert. The plants are limited but we offer them in 1000 lots at a price almost anyone can afford to pay. 12 for \$3.50 250 for \$45.75 2-Yr. Bearing Age Plants 25 for \$9.00 50 for \$17.00 200 for \$59.50 100 for \$32.00 12 for \$5.00 **√** SODUS PURPLE RASPBERRY The leading PURPLE RASPBERRY today. It was introduced by the New York Experimental Station several years ago. Plants are very vigorous, very productive, and very hardy. Sodus ripens shortly after Latham. Popular wherever offered.

MORRISON THE GIANT BLACK RASPBERRY

This variety originated as a chance seedling in northern Ohio and has attracted a great deal of attention by com-mercial growers because of its abnormal size. The plant is an extra strong grower, being quite free from the common black raspberry diseases. Ripens somewhat later than Cumberland and has a very dark glossy color. Berries are firm in texture and high in quality. Plants are not plentiful and price is somewhat higher than commonly asked for the old varieties, but we believe a trial planting will prove they are worth more.

CUMBERLAND KING OF THE

Most popular black raspberry today because of its great size, beauty, firmness and productiveness. The fruit is the largest of the black raspberry family, often measuring almost an inch in diameter. Cumberland is very hardy, will stand severe drought and cold weather conditions well, without injury. It sets a great many berries, and should be heavily trimmed to get best results. Wonderful canning berry, makes delicious pies and jelly. Commands top market prices. Almost disease free and very popular because of this quality. Able to grow on almost any soil that is not wet.

LOGAN BLACK RASPBERRY

An Ohio origination. Logan ripens seven to ten days ahead of Cumberland, which allows the grower to get on the market ahead of other varieties, giving him an opportunity to make some real money. Produces immense crops of jet black berries, as large as Cumberland. Does not crumble, and the last picking looks as nice as the first. Stands severe weather conditions. A great deal of its present popularity is due to its "disease-free qualities." Of high dessert quality and fine for canning.

No Waiting Make Money on Raspberries the First Year! Plant STAHELIN'S 2-yr.-old BEARING AGE PLANTS

As a great many of our customers desire quick results in their gardens, we have produced a few thousand of these large size black raspberry plants to supply this demand. These black raspberry plants are very large. They will run from 18 to 24 inches in height. They will all be branched and they will have a mass of heavy roots. If you plant them carefully every one of them will live and will produce a partial crop for you the first year. A great many commercial growers are planting this type of plant as it assures them of getting a full crop in two years, whereas the one year plants must be grown three years in the field before they will bear to any extent. We suggest to those that order these two year plants that they cut them back to some extent and not allow them to bear fully the first year.

Goldenette

Goldenette is the largest, most beautiful, round, and most richly flavored peach we have ever tested. It has a brilliant golden color and it is almost impossible to describe how bright this color is. Has a slightly red cheek. Skin is very firm, which should make it a good shipper. It ripens about the same time as Elberta, is fertile flowering and freestone. Goldenette has proved to be quite frost free. It is a fancy peach for a fancy trade and propagation rights are reserved by Stahelin. We want every customer who has room, to set one or two trees of this new variety. If, when these trees come into bearing, you are not satisfied, other stock will be sent to you free of charge in replacement.

public. Again this year in our test block, this peach proved that it has everything that is desirable in a high quality, yellow freestone variety. It's fully as large or larger than J. H. Hale. It has a better color and is an absolute freestone. We sincerely urge every commercial grower that reads this copy to try it as it will be a

Michigold

This variety ripens about the same time as Hale Haven, but is fully 15 to 20% larger. Has a bright golden color with a large amount of red if allowed to ripen, at which time it will run fully 60% red. A better quality peach than Hale Haven or South Haven, its large size always makes it bring a premium. It is freestone, self-pollinizing, and the tree is extremely hardy due to the fact that this variety originated in Michigan. Michigold should be more heavily planted by commercial growers. **PRICED BELOW.**

HONEYGOLD) Will Not Dry Rot Fine Shipper

A comparatively new peach named for us by one of our customers. It is a native of Michigan—a proven variety that has all of the good points and none of the bad. Hon-ee-gold is a marvel in size, slightly on the round type, 10% larger than Elberta. Ripens very late on the tree, has a bright red cheek and packs up beautifully in the bushel. Hon-ee-gold has excellent flavor. The inside is golden yellow with a slight amount of red next to the pit. **PRICED BELOW.**

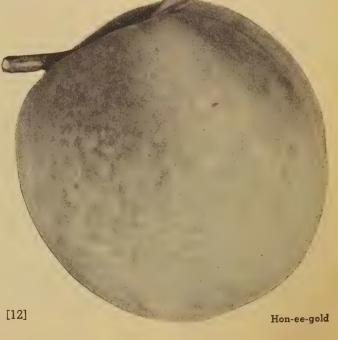

PRICES—Michigold, Red Rocket, Hon-ee-gold Dormant bud trees. Well branched and rooted.

RED ROCKET

10% Larger Than Hale Haven-More Color

Ripens at a time when the market is always good. Fruit has an excellent yellow skin with a great deal of red when fully ripe. Flesh is firm and fine-textured. Outstanding for canning and shipping. RED ROCKET is considerably larger than Hale Haven and ripens about four to six days later. A bud sport of Fertile Hale, it originated in our own orchard. Obtainable only from Stahelin, Does not dry-rot. PRICED BELOW.

Sullivan's EARLY ELBERTA

Larger—Better—Ripens 7 to 10 Days Before Old Elberta—Sells Fast

Sullivan's Early Elberta is the new type Elberta peach that is sweeping the peach growing sections of the country. The tree is very hardy and is rapidly replacing the standard Elberta because it ripens 7 to 10 days earlier. It is identical in shape, color and flavor, but is slightly larger in size. Excellent shipper. PRICED BELOW.

SCARLET ELBERTA

Extra Heavy Crops—Needs No Thinning

Ripens a few days earlier than common Elberta, but larger in size. Absolutely hardy. Wonderful for market purposes. Ideal for desserts and canning. Tree is vigorous, strong growing, and bears young. Sets a heavy crop but does not require thinning. Self-pollinizing. **PRICED BELOW.**

ELBERTA

Famous For Flavor-For Making Money

No other peach has ever attained the popularity of this variety. Slightly oval in shape, golden yellow skin with a slight blush. Fruit is thickly skinned, making it ideal for shipping. Excellent for canning, drying and freezing. Ripens medium late. Freestone and self pollinizing, also a good pollinizer for other varieties. Usually bears third year — enormous producer at maturity. Trees are quite hardy, but may be affected by severe frost. **PRICED BELOW.**

GOLDEN JUBILEE

Sweet and Juicy-Frost Resistant

Very early. Excellent for commercial planting. Fruit is somewhat oblong in shape and has a brilliant golden color with a slightly red cheek on one side. It is goldenfleshed, very juicy, and a freestone. Perfect pollinizer. The tree is extremely hardy, producing fruit when other varieties are frozen. Fruit is delicious in flavor, excellent for desserts and canning. **PRICED BELOW.**

FAIRHAVEN

Early-Heavy Producer-Hardy

We have increased our planting on Fairhaven Peach trees and can now offer them at a very attractive price. This is a wonderful variety and we urge the commercial planters to set it heavily. It is very hardy and during the seasons when the blossoming period is cold or foggy, it will produce a full crop of fruit when many other varieties would fail. Fruit is nearly round, mostly bright golden color, with an attractive red cheek which shows up when the fruit is still very green. Fairhaven is an excellent shipper. It matures about a week before Hale Haven and right at the end of the Redhaven season. Freestone. **PRICED BELOW.**

GOLDEN ELBERTA

Sweet and Juicy-Good Eating

It is identical with the common Elberta with the exception that it is golden-yellow with a slight blush on the cheek. Same season of ripening, same size, same shape as Elberta.

CANNING PEACHES AMBER GEM

The Frost-Proof Peach

A peach that is huge in size, extremely bright red in color, tinged with yellow. A clingstone variety. The tree is thrifty, bears an enormous crop, and the peach is wonderful for canning. Extremely heavy-skinned, and the finest shipping peach we have. Very hardy. Used by commercial canners almost 100%. Does not dry rot on the tree and we should like to see every grower plant several trees for trial. **PRICED AT LEFT.**

NUGGETT

California Type Canning Peach

This clingstone peach is distinctly a beauty. It is a clingstone until dead ripe and then it will come off the pit. Brilliant golden yellow with an occasional slightly red cheek. Ripens from 7 to 10 days after Elberta. Especially hardy, producing a crop when most other varieties are winter-killed. PRICED AT

[13]

The Ginest That Money Can Buy
PEACH TREES

→ HALEHAVEN

Early-Excellent Shipper, Canner

Colors all red long before it is ripe, and retains its richness of flavor over a long period. Is round in shape, very sweet flavor, and ripens about a week before Elberta, Freestone. Halehaven is one of the greatest shipping and canning peaches ever introduced. It was originated in Michigan. It is hardy and self-pollinizing. One of our most popular peaches here. Wonderful for distant shipping. **PRICED BELOW.**

REDHAVEN

Excellent Extra Early Market Peach

The Redhaven peach is a Michigan origination, which makes it especially hardy. It is practically the earliest peach that we have and as it carries a good red color long before it ripens, you can pick it almost any time you desire. It is an excellent shipper. Fruit is very firm, easy to handle, bright red in color, with golden firm-textured flesh. **PRICED BELOW.**

NEW RED BARTLETT PEAR

MAX RED BARTLETT, Plant Patent No. 741

This variety is a new sport of Bartlett Pear. It originated in the Northwest and is very hardy. The fruit carries a good all-over red color. Excellent keeper. The high quality fruit ripens in the regular Bartlett season.

PRICES: 9/16 TREES ONLY, BRANCHED. EACH \$2.50; 2 for \$4.25; 10 for \$19.50, NET, NO DISCOUNT.

SALLOWAY

If you want a fresh peach just before the snow flies, plant a few Salloway. Fruit ripens late—3 to 4 weeks after Elberta. It is round and very highly flavored. A peach that you'll like! We always plant a few Salloway for home use here because fruit comes out of season and everyone likes peaches late in the year. Perfect Flowering and hardy. **PRICED BELOW.**

→ PERFECT HALE

A Money-Maker— Weathers Drought—Cold

A perfect flowering yellow variety. The Perfect Hale will ripen a few days after you have picked your Elberta peaches. This will lengthen your picking season a great deal. This is an Elberta type, although it is nearly round in shape. It has the rich "Hale" flavor, but its quality is about like Elberta, although it is more highly colored. Flesh is exceptionally firm, and richly flavored. Freestone. Perfect Hale has proved to be one of the best in hardiness. **PRICED BELOW.**

acid taste. Excellent for eating and most popular for fruit-stand purposes. Makes a very good winter apple.

WEALTHY

A fall apple, medium in size, and has a very fine flavor. Much desired for cooking and pie makina.

GRIMES GOLDEN

An all vellow apple, Round in shape, medium size and is quite acid in flavor. It ripens in the fall and is a good winter apple.

RED ROME

This variety is an all-red strain of the old type Rome Beauty. It is very highly prized for baking purposes. It is almost a solid red and of very large size. One of the best varieties for winter storage.

RED McINTOSH

A superior strain of the old type McIntosh. It is practically all red, a fine eating apple, of good size, and a delicious aromatic flavor.

YELLOW TRANSPARENT

This variety is good to eat long before other varieties are ready. It is yellow in color, very crisp, juicy white flesh, and has a delicious flavor.

HYSLOP CRAB

This is the only variety of crab apple that we list, as it is by far the best. Fruit is dark purple color when fully ripened and has a wonderful flavor. Used by canners for pickling, jelly, etc.

Plant Stahelin's

DWARF FRUIT TREES

Dwarf fruit trees can be grown successfully in very little space. They produce the same as the larger trees and bear quickly. Two or three years after planting, you can usually expect to get quite a crop of fruit. If you are cramped for space, plant a few of these dwarf trees. They only grow 10 to 12 ft, high and can be planted less than 15 ft. apart. We use only the best of Malling understock

and you are assured of getting good trees, which will increase in value from year to year. Beautiful ornamental trees early in

spring when they are in full bloom.

BARGAIN NO. 8

Apple 3-4 ft. (Your Choice) Pear 2-3 ft. (Bartlett only) Oka Cherry 3-4 ft.

3 Dwarf Trees DISCOUNT

DWARF APPLE TREES

Dwarf Pears bear early often the next year

after planting.

Our Dwarf Apple trees are hardy and productive, often bearing more fruit than standard trees of proportionate size. Due to their small size, they are easy to prune and spray, and the fruit is very easily picked. We offer the following varieties in these dwarf apple trees: RED DELICIOUS, SNOW APPLE, NORTHERN SPY, and YEL-LOW TRANSPARENT. Price 3-4 ft. trees \$3.00 each; 2 for \$5.50: 5 for \$12.50.

DWARF PEAR TREES

The trees are small but the pears are big! These beautiful heavy-bearing trees are offered in one variety only—the old standard-BARTLETT. It is the best pear that we have today for all purposes. These trees produce top quality fruit, often larger than average trees. Foliage and size make them very attractive for landscape work. Ideal for the small yard. Price 2-3 ft. trees \$1.95 each; 2 for \$3.50; 5 for \$7.95. 3-4 ft. trees \$2.50 each; 2 for \$4.75; 5 for \$12.25.

Oka Cherry

Above is a Dwarf Delicious the 3rd season after planting. These trees bear soon, have large crop of good-sized fruit.

[16]

DWARF SAPA PLUM

Red-fleshed Plum. Delicious, sweet, and juicy. Medium size. Small freestone. Produces in coldest climates. Fruit is firm, good for canning and shipping. Plant two for best results. **PRICE: 3-4 ft. trees** each \$1.55; 2 for \$3.00; 5 for \$6.85.

DWARF OKA CHERRY

Larger than Sweet Cherries, the fruit is dark purplish red all the way through. This handy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular Sweet Cherries do not thrive. Sweet and delicious, fresh or canned. Small stone. Plant two best results. PRICE: 3-4 ft. trees each \$1.55; 2 for \$3.00; 5 for \$6.85.

You Pick Fruit Years Sooner by Planting Stahelin's SUPER SIZE Bearing Age Trees

If you want 6 to 12 trees and quick results, order our Super-King Size Bearing Age Fruit Trees! They will bear in half the time and can be furnished in almost any variety. By setting these large trees you save time, as it requires from 3 to 5 years to grow them in the nursery. The cost, naturally, is higher, but your extra cost is quickly returned to you by the fruit which is produced soon after planting. These trees require no special culture. They must be carefully planted, however, spreading out the roots in the opening and setting them deeply enough so that the wind will not blow them over. They should be carefully watered after planting and the addition of about 3 to 4 tablespoonfuls of commercial fertilizer per tree is advised.

SUPER SIZE APPLE TREES

These are large trees. They will caliper more than one inch, are heavily branched and well rooted. For varieties see page fifteen. 6-7 ft.

trees, \$2.50 each; 2 for \$4.25; 5 for \$10.00.

SUPER SIZE PEAR TREES

Pears do not grow to a great height in the nursery but these trees will be from 5-7 ft. in height and one inch in caliper. See page eighteen for the varieties in which these Super Size Pear Trees are available. 5-7 ft. trees, each \$2.25; 2 for \$4.25: 5 for \$9.95.

SUPER SIZE PLUM TREES

We offer Super Size Plums in Stanley Prune only. It's the best blue plum and will bear early. 5-6 ft. trees, each \$2.25; 2 for \$4.25; 5 for

SUPER SIZE PEACH TREES

These peach trees caliper one inch and up. Well branched, extra heavy root system. Available in all standard varieties. See pages thirteen and fourteen. 5-6 ft. trees, \$2.50 each; 2 for \$4.25; 5 for \$10.00.

SUPER SIZE CHERRY TREES

Available in Montmorency only. Blocky, heavy-bodied, well rooted, branched cherry trees. Will caliper more than one inch. Will bear quickly. Guaranteed to be virus free. 5 ft. up, \$2.25 each; 2 for \$3.95; 5 for \$8.85.

5 In 1 APPLE TREE

"The City-man's Apple Orchard"

The quintuplet apple is a tree that has been produced so that the small home owner, who has a restricted planting space, can have a variety of apples over a long picking season. We have budded some of the best kinds so that you will have a Double-Red Delicious, Jonathan, Winesap, Yellow Transparent, and Wealthy. These are five of the best varieties and they will bear fruit over a long period of time. The different varieties will bloom at different times and these trees can be used for ornamental purposes if desired.

These are large, 4 to 6 ft. trees, and are priced at \$2.25 each; 2 for \$4.10; 5 for \$9.75.

CAN BE SHIPPED BY FREIGHT OR EXPRESS ONLY.

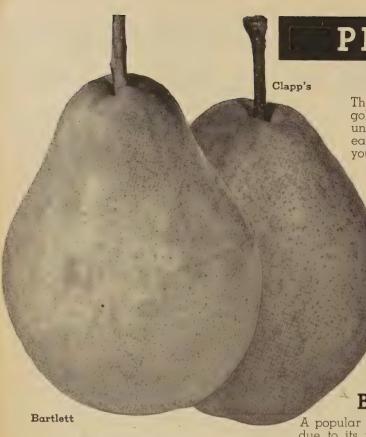

Bearing Age

trees give you

fruit several

years sooner.

PEAR TREES

BARTLETT

The favorite commercial pear. Fruit is very large, juicy, golden yellow in color, with a soft blush. It is quite uniform in shape. Favorable for shipping, canning, and eating. The tree is a strong grower and produces very young. Hardy. **PRICED BELOW**.

CLAPP'S FAVORITE

Perhaps the largest of all pears, and always tops the market because of its excellent appearance. Greenish yellow skinned with a dark red blush. Quite juicy and sweet. A good shipper. Ripens shortly after Bartlett. PRICED BELOW.

FLEMISH BEAUTY

A pear that is honey sweet in flavor when fully ripe. Medium to large size, pale yellow colored with reddish brown cheek. Flesh is fine-grained, very juicy. Tree lives to a remarkably old age. Fruit ripens about the same time as Bartlett. **PRICED BELOW**.

BOSC

A popular pear in California due to its wonderful keeping qualities. A very long-necked pear which is used for boxing purposes, but is highly desirable because of its excellent flavor and shipping qualities. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. Tree bears young and is hardy. PRICED BE-LOW.

LAWSON

This pear, which is about the same size as Bartlett, ripens 50 days before Bartlett. It comes on the market when no other pears are to be had. Juicy and rich in flavor when properly picked. It is golden yellow with a brilliant red cheek. Tree grows to great height and is free from blight. **PRICED BELOW.**

GOLDBECK PERFECTION

A perfect variety for vigor and hardiness. Very uniform in size, averaging that of medium sized peach. Delicious Flavor! Rich, golden colored apricot-yellow, ripening evenly all over. Can be picked tree ripe for shipping. The finest apricot today. Prices: 3-4 ft. \$1.50 ea.; 3 for \$3.75; 10 for \$11.95. 4 ft. up \$1.95 ea.; 3 for \$4.50; 10 for \$12.50.

ORANGE QUINCE

We list only one kind of Quince, which is the Orange variety. This is a dwarf growing tree which should be planted about 12 to 14 ft. apart. The foliage is very leathery, disease resistant and quite dark in appearance. Orange

resistant and quite dark in appearance. Orange Quince is hardy in practically all sections. The fruit is as large as a good sized apple, golden yellow in color. This variety is valued very highly for preserving or jelly making.

Price: 3-4 ft. trees each \$1.75;3 for \$5.00;6 for \$9.00.

PLUMITREES

STANLEY PRUNE

The Stanley Prune plum is without a doubt the finest and most beautiful blue plum that we have today. It is very large, very rich in flavor, and it is hardy in all sections of the United States. It is deep blue in color with a golden yellow flesh and it is absolutely freestone. The chief quality of Stanley Prune, other than its large size and beautiful color, is that it does not rot on the tree. It is quick bearing, often starting to bear the second year after it is planted. Excellent shipper. **PRICED BELOW.**

Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage. Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

VAN BUREN

Absolutely new, although it has been thoroughly tested in all grape growing sections. Luxuriant grower, producing compact and well shaped bunches of blue-black color. Exceptionally sweef. Extremely early, ripening 3 to 4 weeks before any other grape is on the market. Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

GOLDEN MUSCAT

Bunches are of good size, brilliant yellow in color, and have a delicious flavor. Will do well wherever the Concord grows. Excellent shipper and producer. Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

NIAGARA

Leading commercial white grape.

More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord. PRICED ABOVE.

FREDONIA

A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper. Huge 3 yr. plants 85c each. Other plants PRICED ABOVE.

DELAWARE

Small, compact bunch, sometimes shouldered. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord. Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy. **PRICED ABOVE**.

Stahelin's Pedigreed ASPARAGUS Plants

New PARADISE

Early, Easy to Grow, Rust Resistant, Immense Money Maker
The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will

any other known variety today. It is rust resistant, producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm. Paradise asparagus offers you a great opportunity to make money. These fine large rooted plants, produced from expensive pedigreed seed, enable you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care. We have complete culture on asparagus, ask for it when ordering.

MARY WASHINGTON

The pedigreed seed that we use produces specimen stock often more than an inch in diameter. It is very crisp and delicious. Wonderful for canning. The heads of Mary Washington are very solid and compact; thus, always commanding a better price than asparagus that has loose heads. This variety is absolutely rust resistant. Grows very fast and comes up exceedingly thick in the row, producing a very heavy crop. Approximately 5,000 plants are required to set an acre. Once planted they last for years, requiring little care. Starts to bear in Michigan in May and continues for about two full months.

20] American Wonder Lemon

DWARF ORANGE

A wonderful plant of great beauty and novelty. Glossy green leaves, fragrant waxy white blossoms, tinged with pink. A beautiful house plant. Flowers are followed by edible fruit about one-fourth the size of ordinary oranges. PRICE:Potted plants in 2½ in. pots 85c each; 2 for \$1.60.

DWARF LEMON

(Grows Lemons indoors on small plants.) Most unique plants ever offered for indoor culture which was originally known as the Ponderosa Lemon. Covered with waxy-white, very fragrant flowers several times a year, followed by large lemons often weighing a pound. PRICE: 2½ in. potted plants 85c each; 2 for \$1.60.

Dwarf Blue Leaf ARCTIC HEDGE

Dwarf Blue Willow. Low growing, excellent for hedges. Leaves cluster thickly from ground up. Foliage is a lovely gray-blue. Grows anywhere, even on wet or heavy soils. Matures into a beautiful, thick hedge, up to four feet tall if allowed to grow naturally. Plant 8 in. apart. PRICE: WELL ROOTED PLANTS 12-15". 3

for \$1.20; 10 for \$3.50.

A BEAUTIFUL LIVING BARBED WIRE FENCE

MULTIFLORA ROSE

Low Initial Cost—No Repairs

The Multiflora Rose is a living fence, is an aid to soil conservation, and it seems to be adapted to almost the entire Country. Grown on soil of average to good fertility, it will produce a hedge in three to four years that will turn any kind of livestock except small hogs

> and poultry. In May or June, a Multiflora Rose fence presents a spectacle of a ribbon of bloom running over the hillside. The white or dusty pink bloom comes all at once and lasts about two weeks. Foliage appears early in spring and persists until heavy frosts of winter. Multiflora Rose is a natural habitat for game birds and wild life of all kinds.

Stock-Proof and Well-Behaved

Multiflora Rose is being sold to those who realize that they can save a great deal of money by planting this type of hedge over the cost of posts and wire. This plant will grow and thrive under any conditions and throws up no sprouts nor does it spread from the roots. As it grows older, it continues to grow thicker and higher. It's an economical way to fence. This year we list only the large size plants as the small ones are too difficult to start. We suggest that you order them early as they are always in great demand and our supply is usually sold long before our shipping season is over.

Two collections for \$12.25

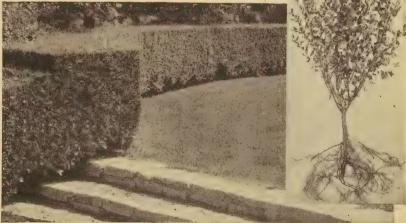

Permanent, Trouble-Free Fence

Hardy Ornamental HEDGES

SPIREA VANHOUTTEI

Bridal Wreath. During June its branches are literally covered with delicate white flowers. Beautiful bright green leaves come early and stay late. Very hardy and thrifty. 12-15 in. Well Branched Plants, each 25c; 10 for \$1.95; 25 for \$4.20; 50 for \$7.00. 18-24 in. Extra-Heavy Plants each 30c; 10 for \$2.75; 25 for \$4.95; 50 for \$9.00.

AMOOR RIVER PRIVET

Succeeds anywhere, perfectly hardy. Shiny dark green leaves from early spring until late fall. Not subject to blight—resistant to insect pests. Trim to desired height and shape at any time during the summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant 2 rows, alternating the plants. 2 yr. 12-15 in. branched plants 10 for \$2.15; 25 for \$4.55; 50 for \$7.25; 100 for \$12.50. 18-24 in. branched plants 10 for \$2.65; 25 for \$5.15; 50 for \$8.65; 100 for \$14.50.

Its usual habit is narrow and columnar, with many erect branches and branchlets. Foliage is spiny, with sharp points and of a glaucous blue color. Makes a very dense growth, eventually reaching a height of 5 ft. at maturity. May be trimmed as desired. PRICE: 10-12" Transplants each \$1.50; 3 for \$3.75.

COLORADO BLUE SPRUCE

The Colorado Sprucie is without a doubt one of the finest of blue-type evergreen trees. It grows to a great height and is an ornamental tree of glistening silvery blue from early spring to midsummer. Originated in the cold section, it is very hardy and is perhaps the most showy and popular of all spruce trees. We have grown a fine lot of this spruce, the seeds taken from carefully selected trees so as to obtain the very finest color. PRICE: 10-12 in. heavy transplants each \$1.65; 3 for \$4.50; 5 for \$7.00.

HATFIELD YEW

Grows in columnar erect form. Vase-shaped. Color is extremely dark green, the foliage heavy and luxuriant. Very hardy, easy to grow, and does well in shade. Somewhat resembles Hicks Yew. PRICE: 10-12 in. transplants [22] each \$1.85; 3 for \$4.50.

Pfitzer's Juniper

Favorite of all spreading Junipers. Low, spreading bush with plume-like branches. Beautiful silvery bluegreen foliage. Very hardy and will stand considerable shade. A favorite for foundation planting.

PRICE: 10-12 in. heavy transplants each \$1.85; 3 for \$4.50.

Pyramidal Arborvitae

evergreens. Price: 10-12 in. heavy

plants each \$1.95; 3 for \$5.40.

A favorite for entrances. Grows tall and narrow. One of our leading evergreens, it grows rapidly, has a shapely pyramidal habit and is easily trimmed. Very popular in this part of the country.

PRICE: 18-24 in. heavy plants each \$1.95; 3 for \$5.40; 2-3 ft. each \$3.25; 3 for \$8.95.

Grow More Beautiful Each Year

MUGHO PINE

The leading Dwarf Evergreen. Numerous side branches begin close to the ground, spreading horizontally and turning upward in regular growth. Grow in shade. PRICE: 8-10 in. spread each \$1.75; 3 for \$4.50.

2 Pyramidal Arborvitae 2-3 ft.

2 Pfitzer's Juniper 10-12 in.

2 Mugho Pine 8-10 in. spread

Hemlock

CANADIAN HEMLOCK

Most graceful of all evergreens, its long branches drooping gracefully to the ground. Needles are soft. Dark green on top, silvery beneath. Can be trimmed. PRICE: 8-10 in. each \$1.00; 3 for \$2.85.

IRISH JUNIPER

A tall columnar type with silvery green foliage. Very erect and slender. Excellent for use at entrances. Reaches a height of 7 to 8 ft. at maturity or can be trimmed to desired height. PRICES: 12-15 in. heavy transplants, \$1.25 each; 3 for \$3.45.

This is an upright conical grower. Begins to grow at low temperature with soft, feathery light green foliage early in spring. Again in autumn it is very beautiful as its needles turn a golden color before falling. One of our best lawn trees. **PRICE: 12-18 in. trees \$1.00 each; 3 for \$2.75.**

We recommend to you POPULAR GARDENING, America's new all-garden magazine. It will help you grow better flowers, fruit, vegetables and shrubs. A special introductory order form for customers of STAHELIN'S NURSERY is inclosed.

European Larch

CLIMBING ROSES

For Porches, Fences, Trellises and Arbors For display and for color, hardly anything can equal the climbing roses in full bloom. If they are used on porches, fences, trellises, or arbors, they greatly improve their beauty. All that we list are hardy. Plant 3 to 4 feet apart.

SILVER MOON—large buds, creamy white flowers with a faint ivory tinge and golden stamens.

PAUL'S SCARLET CLIMBER—intense scarlet flowers of excellent shape and good size, borne in clusters.

PRIMROSE — hardy, double canary-yellow roses

NEW DAWN, EVERBLOOMING CLIMBING ROSE—apple blossom pink flowers with oldrose fragrance.

PRICE: 95c each; 3 for \$2.70.

Paul's Scarlet Climber

Silver Maple

American Elm

Lombardy Poplar

For Beauty and Comfort, Plant Stahelin's HARDY SHADE TREES SILVER MAPLE

Most rapid grower of all Maples. At maturity it reaches a height from 60 to 70 feet. Dark green leaves with a silvery surface underneath, turning gold in the fall. Thrives on all kinds of soil. 3-4 ft. trees, each 65c; 10 for \$5.50; 50 for \$24.50. $4\frac{1}{2}-5\frac{1}{2}$ ft. trees, each 85c; 10 for \$7.50; 50 for \$34.50.

AMERICAN ELM

Natural spreading and drooping tree. Favorite for street and general planting. Tall-growing, long-lived, hardy. 4-5 ft. trees, each 75c; 3 for \$2.10; 10 for \$6.50.

EUROPEAN WHITE BIRCH

Hardy, tall-growing, upright lawn tree of distinctive character, its creamy white bark contrasting sharply with its foliage. Will thrive on either wet or dry soils. 41/2-5 ft. trees, each \$1.85; 2 for \$3.40; 5 for \$8.00.

GOLDEN WEEPING WILLOW

Has golden yellow bark with narrow green leaves. Slender branches hang in a beautiful arch to the ground. Hardy, fast grower. 4-5 ft. trees, each 95c; 2 for \$1.75; 5 for \$4.10.

CHINESE ELM

Fastest growing shade tree today. Extra hardy, withstands cold winters, thrives on poor soil. Useful for windbreaks, and specimen planting. 4-5 ft. trees, each \$1.25; 2 for \$2.40; 5 for \$5.75; 5-6 ft. trees, each \$1.45; 2 for \$2.80; 5 for \$6.75.

WISCONSIN WEEPING WILLOW

A graceful tree with drooping branches sweeping the ground. Long slender green leaves and hardier than the ordinary Babylonica, Rapid grower. 4-5 ft. trees, each 95c; 2 for \$1.75; 5 for \$4.10.

LOMBARDY POPLAR

Well known for its tall, slender, upright growth. Rapid grower on any soil. Dark green leaves, lighter shade on under side, roots do not clog drains. 3-4 ft. trees, each 65c; 2 for \$1.20; 5 for \$2.75. 5-6 ft. trees, each 85c; 2 for \$1.60; 5 for \$3.75.

TULIP TREE

Tall pyramidal, with broad glossy leaves. Bears tulip-like flowers of white with green centers in June. Excellent for street or lawn. 3-4 ft. trees, each 90c; 2 for \$1.70; 5 for \$3.95.

Golden Willow

Tulip Tree

Chinese Elm

European White Birch

CRIMSON KING RED NORWAY MAPLE

The Crimson King Maple is one of the most beautiful of all red-leaved trees. Grows identical with the common maple and is the same size, but has deep red leaves from early spring until late fall. Originated in Norway and is therefore entirely hardy. Creates a sensation wherever grown. These 2 yr. old trees will grow rapidly and become beautiful showy trees in a short time. Order your Crimson King Maple early as the demand exceeds the supply available, year after year. PRICE: 3-4 ft. trees \$3.25; 2 for \$6.25; 10 for \$25.00. NET, NO DISCOUNT.

BECHTEL Flowering Crab

A hardy, small, flowering tree. Compact grower, prune as desired. Double flowers of delicate pink, resembling small roses, completely cover the branches in early spring. Very fragrant. Ideal for small lawns. Distinct lobed leaves. PRICE: 2-3 ft. branched trees, each \$1.25; 2 for \$2.40; 5 for

Bechtel Flowering Crab

RED LEAF PEACH **Brilliant Red Foliage All Year**

We offer this brilliant red-leafed tree as something quite new in the ornamental field. It is not only decorative, but produces worthwhile fruit at the same time. Its habits of growth are practically idential with the common peach, and its deep rose colored blossoms, against the red foliage, produces a very pleasant picture when set among other plantings. Fruit is white and highly flavored. Ideal for pickling. PRICES: 3-4 ft. trees, each \$1.45; 2 for \$2.50; 10 for \$11.95. 41/2-6 ft. trees, each \$1.65; 2 for \$3.00; 10 for \$13.95.

Mountain Ash

RED DOGWOOD

(Cornus Florida Rubra) Produces a great profusion of large rose-red flowers in the spring. Heavy with glossy red berries in the fall. Attractive grayish green foliage in the summer, turning a rich crimson in early autumn. Tree grows 10 to 15 feet tall. Well suited for small yards. Adds greatly to any landscape picture. PRICE: 2-3 ft. trees, each \$2.50; 2 for \$4.50.

MOUNTAIN ASH

A very popular tree all over America. In late summer it is laden with clusters of bright red berries against a background of lacy green foliage. Hardy and one of our most beautiful ornamental trees. May be trimmed as desired. At maturity attains a height of 18 to 25 feet. PRICE: 31/2-5 ft. trees, each \$1.95; 2 for \$3.75.

Red Dogwood

White Flowering Dogwood

MAY DAY TREE

The first tree to leaf out in the spring and the first to bloom. Fragrant trusses of pure white flowers cover the entire plant during April and May. Flowers resemble Lilacs in shape and are lovely for cutting. Grows rapidly and is hardy. 2-3 ft. trees, each \$1.90; 2 for \$3.60.

May Day Tree

Flowering Peach

Unusual, Exciting Flowering Trees

WHITE FLOWERING DOGWOOD

Large, white flowers with an extra row of center petals. Red berries in the fall, also the leaves turn red. Grows to a height of 10 to 15 feet at maturity. May be trimmed as desired. 3-4 ft. trees, each \$1.50; 2 for \$2.90.

FRENCH PUSSY WILLOW

Silky gray catkins burst forth to decorate the brown twigs early in the spring. Branches may be cut in mid-winter for bouquets in the house. Large tree-like shrub with long narrow leaves. 18-24 in. plants 75c each; 3 for \$2.10.

MAGNOLIA SOULANGEANA

Magnolia Soulangeana is the most popular of the Magnolias. Produces large rose-pink blooms long before any leaves appear in the spring. Reaches a height of 10 to 15 feet at maturity. Very ornamental. 18-24 in. trees, each \$2.95; 2 for \$5.10.

Magnolia Soulangeana

HOPA CRAB

Most beautiful flowering crab that can be grown in the north. Absolutely hardy. Graceful, medium sized tree strikingly ornamental. Buds are blood-red, flowers deep rose colored. 3-4 ft. trees. each \$1.60; 3 for \$4.20.

FLOWERING PEACH

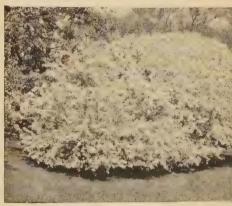

Flowers appear early in spring before the tree leafs out and are very thick. Height about 15 ft. at maturity. Available in RED or WHITE flowers. State color. 31/2-5 ft. trees, each \$1.25; 3 for \$3.45.

SMOKE TREE

Purple Fringe Smoke Tree. Strikingly different shrub. Hardy and easily grown. In late summer and fall it is covered with fine, purplish, mistylooking flowers which give it a smoky appearance. Flowers are long lasting. 18-24 in. trees, each 80c; 3 for \$2.25.

THOMAS BLACK WALNUT

Big Profits And Delicious Nuts From A Beautiful Shade Tree!

Grafted Black Walnuts producing at age of four years.

Great care has been taken to bud the Thomas Black Walnut from the best parent trees to be found. It not only produces profitable crops, but will produce valuable timber in time. Thomas Black Walnuts are easy to grow, as the trees flourish under almost any condition that is not too wet. Grows to great height in a short time.

Produces Giant Size Nuts Second Year

Thomas Black Walnut trees often begin to bear the second year after planting. They produce nuts of very large size with α thin

shell, which cracks well. Nuts have wonderful flavor and kernels come out in halves, making this variety especially desirable. A mature tree will bear from 15 to 40 bushels of giant-sized nuts during a twelve-months' period.

PRICES: 2-3 ft. trees each \$2.25; 2 for \$4.35; 10 for \$21.50. 3-4 ft. trees each \$2.65; 2 for \$5.20; 10 for \$24.50.

NUT TREE COL-LECTION NO. 17

- 2 Hardy Hazelnuts 18-24"
- 2 Thomas Black Walnuts 2-3 ft.
- 2 Butternut 2-3 ft.

All \$6.25 Net, No Discount

NATIVE BLACK WALNUT

Stahelin's Black Walnuts are grown from seed produced on our own farms from the Thomas, Stabler, and Weird varieties. While not as thin shelled as the nuts from cultivated trees, they are excellent and you still have a better Black Walnut. These trees are hardy anywhere in the U. S. and thrive in sunny, well-drained soil. Fast growing and long lived.

PRICES: 31/2-4 ft. each 95c; 5 for \$3.95; 25 for \$18.75; 50 for \$35.00.

HARDY HAZELNUTS

The Hazelnut trees which we offer are nursery grown stock and will be well rooted and branched. Makes a fine well-branched shrub, 5 to 6 ft. tall and very at-

tractive. Bears very early. In fall leaves turn scarlet and bronze and the bush will be completely covered with nuts. Grows almost any-

where and produces huge crops. Set two or more for best results.

PRICES: 18-24 in. 2 yr. br. trees 90c each; 3 for \$2.55; 10 for \$7.95.

BUTTERNUT

This native nut tree grows in almost every section of the United States. Attains large size at maturity. Starts to bear very early, about 3 to 5 years of age, and will produce a crop annually. The native Butternut is a conical shaped nut that is very nutritious, carrying a very large amount of oil. It grows very easy. It makes an excellent shade and you can plant them in any corner or other sections where ordinary trees cannot be produced, as they require no spraying. PRICES: 2-3 ft. trees each \$5c; 2 for \$1.60; 5 for \$3.75; 25 for \$17.50.

NOTICE: NUT TREES CAN NOT BE SHIPPED TO ARIZONA, CALIFORNIA, IDAHO, NEW MEXICO, OREGON, UTAH AND WASHINGTON

Hardy ENGLISH WALNUTS

NORTHERN GROWN-THIN SHELL

Plant Nut Trees For Profit, Beauty Shade and Pleasure

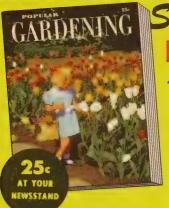

The hardy English Walnuts which we handle are all direct descendants from the original seed which was sent here from the Carpathian Mountains. Their hardiness, rapidity of growth, their long life and beauty, and finally their timber, makes them very desirable. Besides this, they produce large quantities of edible nuts and add greatly to the value of any property on which they are planted. These trees are not always fertile, therefore we suggest that more than one be planted for cross-pollination and guaranteed success.

CARPATHIAN

The Carpathian English Walnut is the king of nut trees. It is a paper shell walnut. Grows in many parts of the world. Hardy. Produces nuts varying in size from that of the California English Walnut to three times its size.

PRICES: 2-3 ft. branched trees each \$2.45; 2 for \$4.60; 5 for \$11.25; 10 for \$21.50. 3-4 ft. branched trees each \$2.95; 2 for \$5.60; 5 for \$13.75; 10 for \$26.50.

a wonderful crop of nuts if conditions are right.

PRICES: 18-24 in. trees each \$1.20; 3 for \$3.30; 10 for \$9.75.

2-3 ft. trees each \$1.55; 3 for \$4.35; 10 for \$12.75.

We offer the new June Spring bearing variety for the first time. It is a sort that originated about three miles from our farm and we have watched it carefully for the past five seasons.

THRIVES ON WET SOIL

It grows on wet land with no root damage. The plants are upright and a good plant maker. It produces enormous quantities of pointed berries that are red clear through.

BERRIES VERY FIRM, GOOD SHIPPER

These berries are very firm and maintain their size very well and ripen about the same time as Premier. Its good shipping qualities are outstanding. There are only a few thousand available this year. We know you will be pleased with it and that it will be a strawberry that you will be proud to show to your friends. PRICES: 25 for \$1.35; 50 for \$2.35; 100 for \$3.45; 250 for \$6.45; 500 for \$10.25; 1000 for \$18.50.

This marvelous new apricot originated in central Michigan and is of very large size, brilliant yellow color, marvelous flavor and absolutely freestone. The fact that this apricot is a seedling which came up in Michigan should make it especially hardy and late flowering, which is a very desirable feature in all apricots. Starglow apricots will produce a crop of fruit for you where most of the other apricots will fail. Self pollinizing.

PRICE: 3-4 ft. trees \$1.65 each; 3 for \$4.50; 10 for \$13.25.
41/2 ft. and up \$2.15 each; 3 for \$5.25; 10 for \$14.95.

New "Ebony King"

BLACKBERRY

The Ebony King Blackberry is the first to ripen and the only blackberry that we can guarantee every plant to bear a fine crop of fruit.

IMMUNE TO COLD WEATHER

The Ebony King is very hardy, originating in Michigan, and has never winter killed here since it has been planted. It produces berries of extremely large size and each plant is covered with an immense quantity of fruit. The large size and each plant is covered with an immense quantity of fruit. The flavor is very sweet and it has very little core. It is just becoming well known and on the Pacific Coast where large canning operations are going on, it is in very heavy demand. Ebony King is the only blackberry we have listed and that is because we can guarantee it to fruit 100%. Owing to the scarcity of blackberries today and the high price which the fruit commands, it offers growers an opportunity for making some easy money. Try 25 or 100 plants and as they come into bearing, you'll regret that you didn't plant more.

PRICE: No. 1 plants 12 for \$3.50; 25 for \$6.75; 50 for \$12.75; 100 for \$19.50; 250 for \$41.85; 500 for \$75.50; 1000 for \$135.00. No discount on 1000 price.

Ebony King is the only kind we can furnish; all others have been discontinued.
